

## **NewPhone's Response to CVE-2021-44228 - Log4J Vulnerability**

Published on: 2021 Dec 18

---

NewPhone is investigating to determine if our product Sirio (current and past versions) is affected by this vulnerability.

At the time of publication, none of Sirio versions are affected.

NewPhone will keep monitoring the situation and if there are any updates to the status of the vulnerability that affects Sirio Software, we will provide an update immediately.

For 3<sup>rd</sup> party software and components used in Sirio software or Sirio distribution please refer to the respective manufacturers.
